ANI Reishi Powder 60 capsules x 500mg

ANI Reishi Powder Reishi Powder is produced by selecting Reishi fruit body, drying them at low temperature. This will enable the medical properties to remain intact. When fully dried they are then grinded into super fine powder that will enable our body for easy absorption.

Ingredients Each vegetable capsule contains 270mg Reishi Powder

Packing: 60 capsules x 500mg

ANI Reishi Mycelium

ANI Reishi Mycelium The mycelium powders are produced by growing selected Reishi strains in organic grains, so the end product contains the broadest and highest concentrations of active medicinal constituents.

Packaging: 60 capsules x 450mg

The substrate is sterilized for 2 hours at 122oC and later inoculated with the pure culture of Ganoderma Lucidum. Mycelium biomass powder is recommended to be taken together with Reishi Powder to achieve better efficacy.

ANI Cordyceps

What is Cordyceps? Cordyceps sinensis, also known as “Dong Chong Xia Cao” in Chinese or “Tochukaso” to the Japanese has a long history of medicinal benefits since ancient times. In its natural form, Cordyceps is a small fungus that parasitizes on a species of caterpillar at high elevations of the Tibetan plateau. The normal range of this fungus is above 2,000 meters elevation, and it has been found as high as 6,000 meters.

The biological composition of cordyceps is very interesting as even today, there is still debate whether the species of the genus Cordyceps are in fact single organisms or if they are symbiotic colonies of more than one organism due to its unique morphology. Modern Cultivation of Cordyceps Due to the rarity of natural cordyceps and the difficulty and cost to harvest from its origin in Tibetan plateau, modern biotechnology has been researching since the 1950s to cultivate cordyceps.

Ingredients Each vegetable capsule contains 500mg Cordyceps

60 capsules x 500mg

ANi Ginseng Capsules 400mg

Ginseng is the most famous herb in traditional Chinese medicine that promotes the immune system, physical and mental health. ANi Reishi Spore

Ganoderma lucidum, also called Reishi, is one of the treasures of Chinese medicine. Reishi, the “Heavenly Herb” or “The Herb of the Gods,” was considered to be the most beautiful and best-known traditional medicine with its exceptional beneficial effect, which further strengthens and balances the individual “life or life force.” Current research confirms that the ingredients contained in the hurricane Reishi have a positive impact on improving health and life expectancy. It shows a wide range of uses that promote vitality and protection. The difference between Ganoderma and medications or dietary supplements is that it does not direct its curative properties to a specific disease, but it helps regulate the work of the whole organism, ensuring the proper functioning of the internal organs.
